

## Apple Grants

**The Apple Grant program was established to provide teachers with a monetary source to enhance the educational experience of their students, and is an on-going annual grant-making program of The Troy Foundation.**

### **Applying for an Apple Grant:**

A simple application must be completed and submitted via The Troy Foundation's [Online Grants Portal](#) in order for a request to be considered. All applications must include a program narrative briefly outlining how the grant will be used to enhance the educational experience of the teacher's students.

The online application is available by clicking the link above, or by clicking the "Apply Here" button at [TheTroyFoundation.org/AppleGrants](http://TheTroyFoundation.org/AppleGrants).

A simple follow-up form describing how the funds were used will be required after the grant has been implemented. This form should also be completed through the Online Grants Portal.

Applications may be for up to \$1,000.00 each. The Total Project Budget may not exceed \$1,000.00.

### **Who is eligible to apply?**

Teachers from Troy City Schools, Troy Christian Schools, St. Patrick Catholic School, Miami County Montessori School, and the Overfield School. For teachers from the private schools, please include the number of students who are Troy residents that attend your schools.

### **Timeline for applying for an Apple Grant:**

Applications are due in May for review in June. A decision by the Distribution Committee will be made in most cases by the end of June.

For more information, please contact Lucas Keller, Grants Manager, at 937-339-8935 or via email at [lkeller@thetroyfoundation.org](mailto:lkeller@thetroyfoundation.org).
